**UN SECOLO DI TRAGUARDI CHE PER LA  
FAMIGLIA GRANIERI RAPPRESENTA  
UNA FONTE DI ISPIRAZIONE  
PER CONTINUARE A CRESCERE  
E LA SFIDA PER COSTRUIRE IL FUTURO.**

*una Famiglia,  
una Tradizione, una Responsabilità.*

*“Correva l’anno 1920 quando Mariano Granieri, classe 1885, creava una piccola bottega di falegnami per la costruzione di carri agricoli. Questo è stato l’inizio di una tradizione imprenditoriale arrivata fino ai giorni nostri e che oggi compie 100 anni. Una storia italiana fatta di sacrificio, determinazione e laboriosità.”*

Orgogliosamente Made in Umbria.

**Arena Kombëtare**  
New Tirana Stadium

A futuristic, multi-colored building with a grid of blue light beams overlaid on it. The building features a prominent cylindrical section with a blue glass facade and a multi-colored facade with yellow, red, and green panels. The scene is set against a dark background with a grid of blue light beams creating a sense of depth and technology.

**ELCOM SYSTEM IS  
LEADER TO OVERCOME THE CONCEPT  
OF THE CONTAINER-BUILDING**

**ELCOM SYSTEM IS  
ATTENTION TO AN  
EVER-CHANGING WORLD**

A dramatic landscape featuring a vibrant green field in the foreground. In the center, six vertical, perforated panels stand in a row, each a different color: orange, silver, light grey, yellow, green, and blue. The background is a dark, stormy sky with a bright lightning bolt striking down on the right side. The overall scene conveys a sense of power and resilience.

**ELCOM SYSTEM IS  
ADDING VALUE TO YOUR PROJECTS**

The image features a series of perforated metal panels in various colors (white, blue, grey, orange, red) arranged in a row against a blue sky background. The panels are shown from a low angle, creating a sense of depth and perspective. The perforations are uniform and circular. The text is overlaid on the white panel on the left.

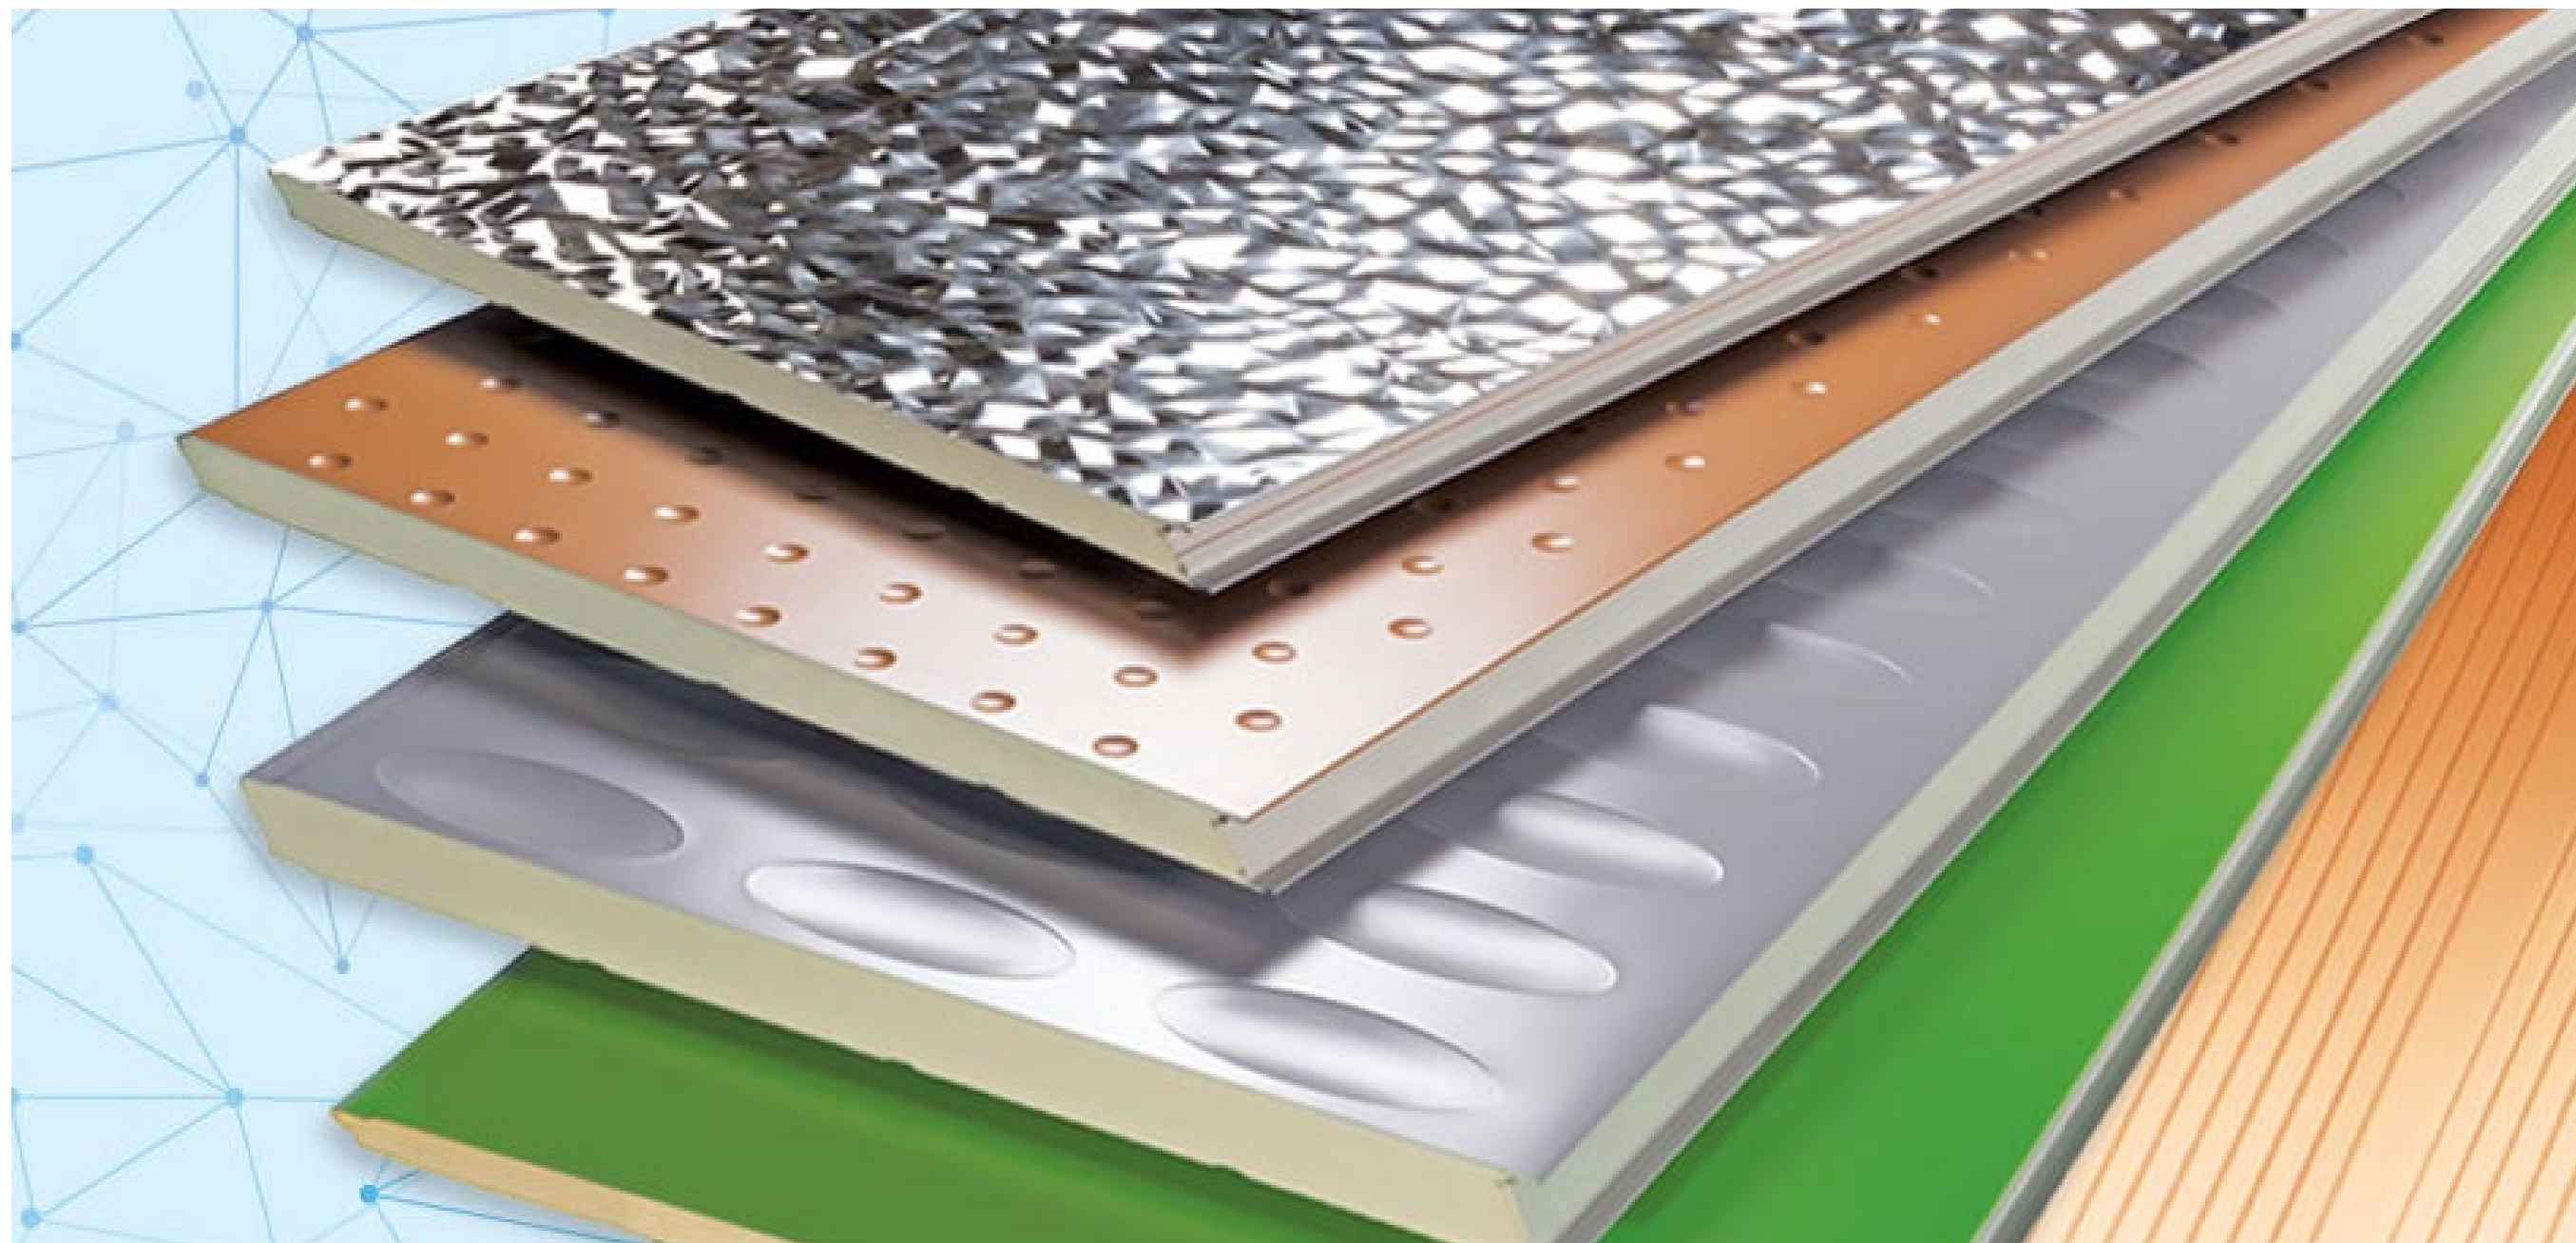

**ELCOM SYSTEM IS  
PROPER AND MODERN RESPONSES**

## Termopareti®

The insulating metal panels called TERMOPARETI® are the well-known monolithic panels researched and made by ELCOM SYSTEM S.p.A. to offer the best in the field of light prefabrication.

With the panels TERMOPARETI® it's possible to realize walls, claddings internal partitions and false ceilings.

The image features a stack of four panels with a textured, oval-shaped pattern. From top to bottom, the colors are yellow, white, red, and green. To the right of this stack is a large, blue panel with a wavy, undulating pattern. The panels are shown in a perspective view, suggesting they are part of a larger architectural or interior design project.

## Termopareti® Rugby

The panels TERMOPARETI® “RUGBY” have been studied to create original architectural impressions with an extraordinary design innovation.

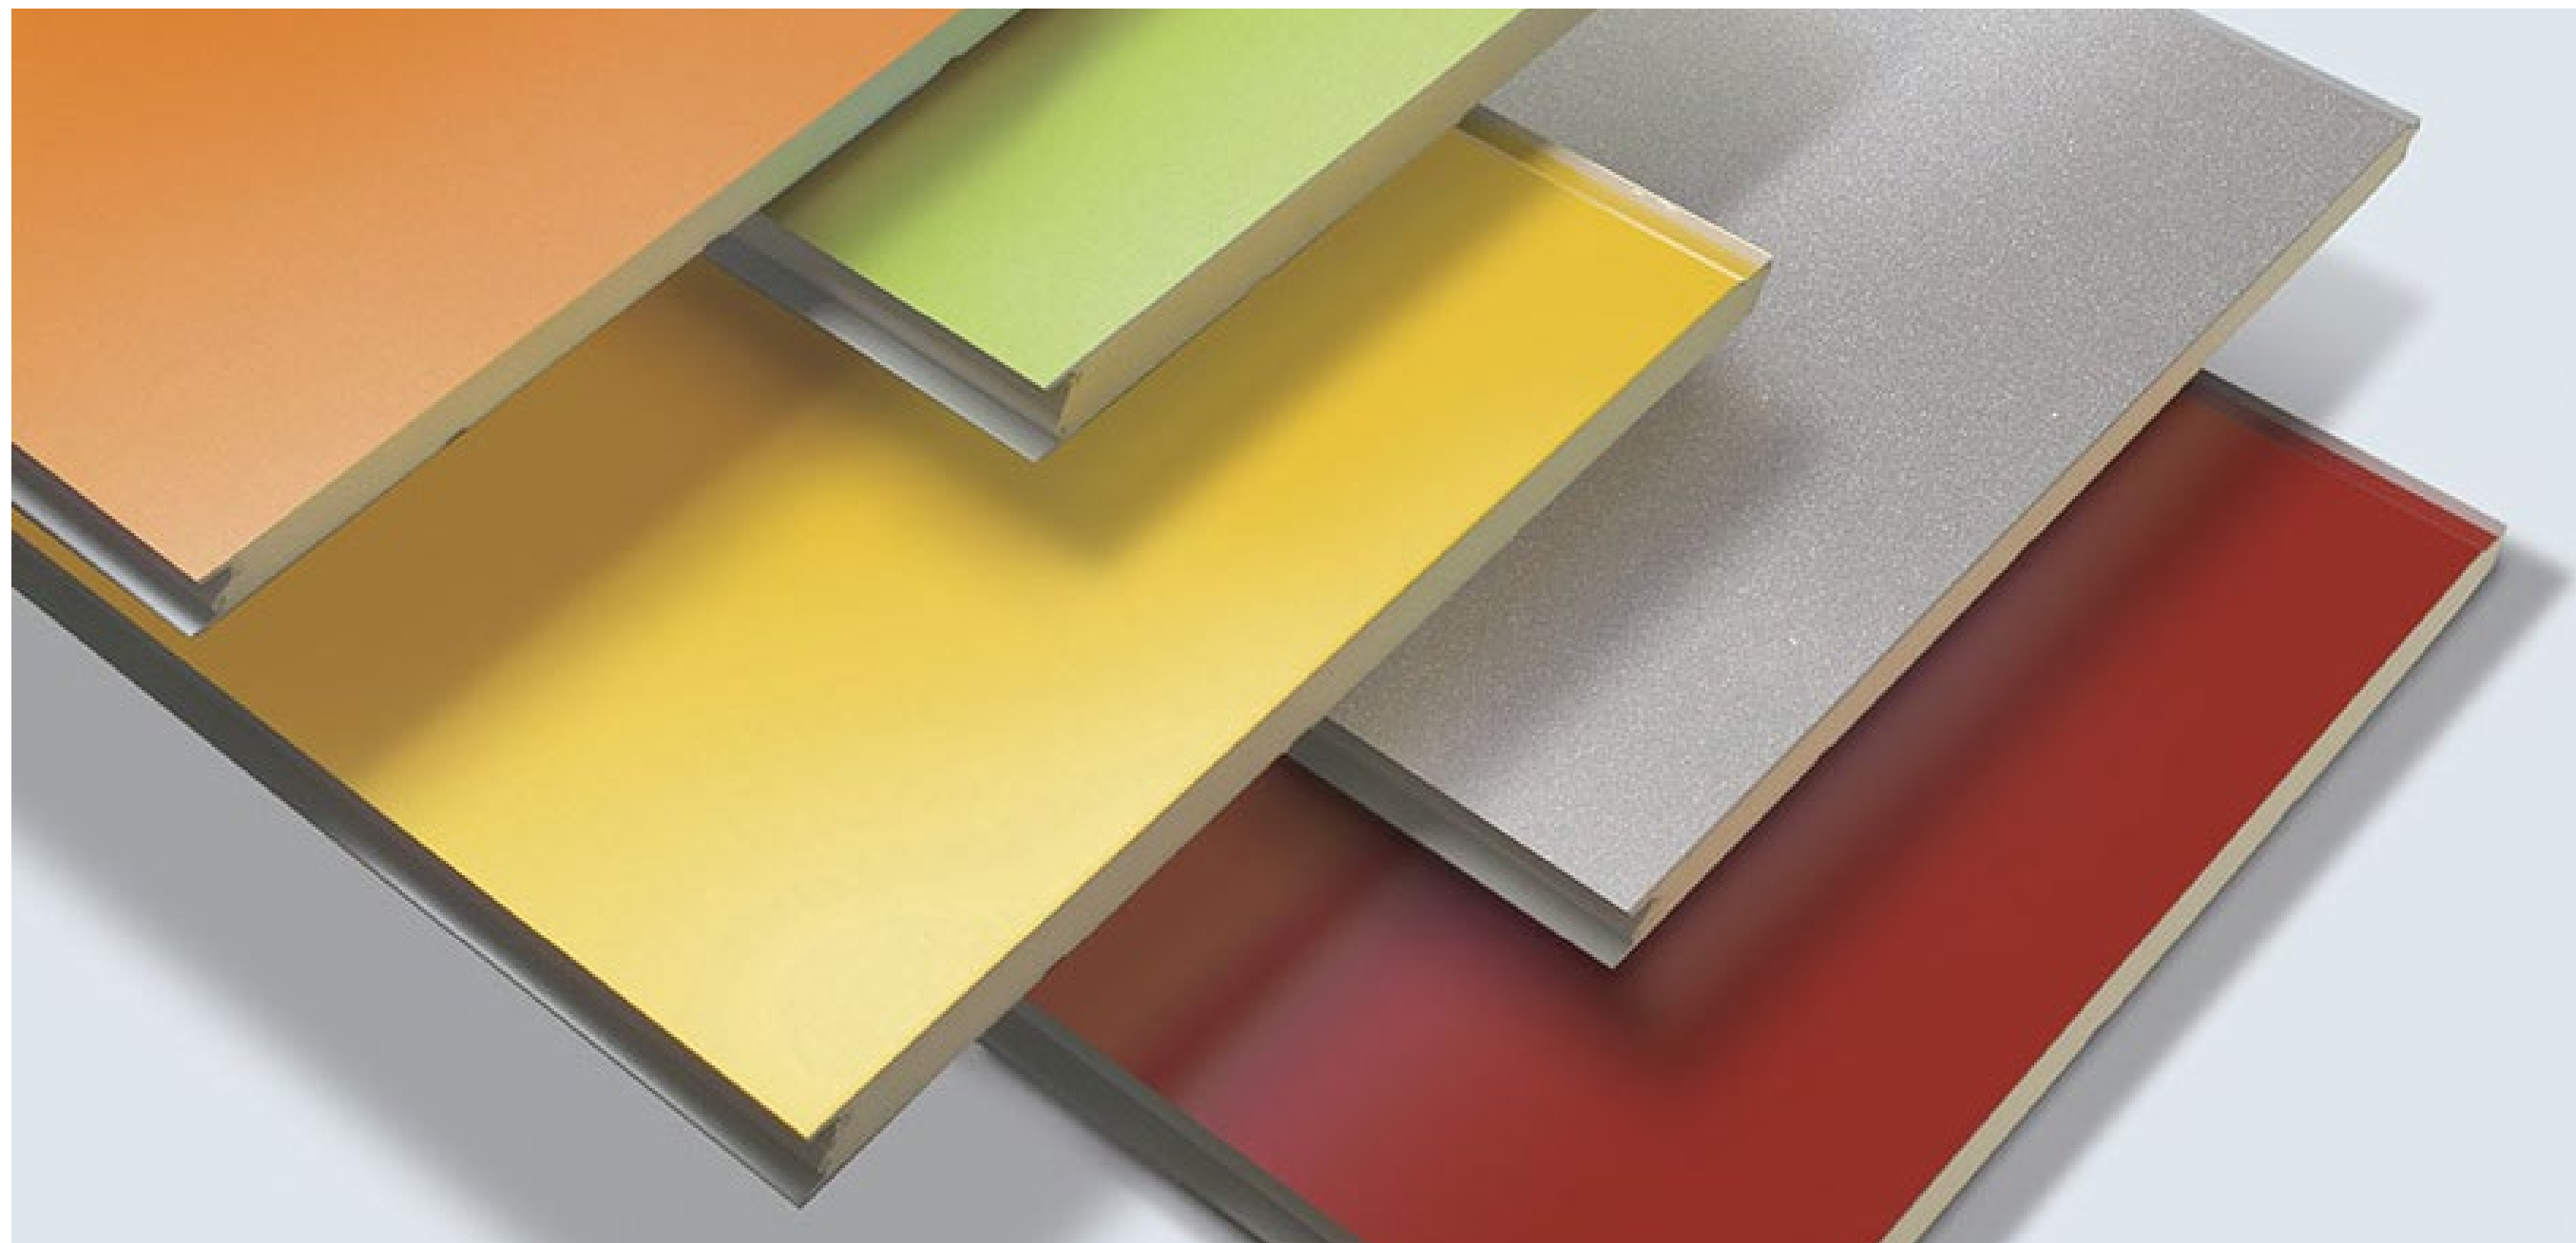

They are available in different thicknesses and colours, and they can be used in industrial, commercial, residential building and public utilities.

COVER WITH TERMOCOPERTURE®**

A scenic landscape featuring a paved road with a dashed white center line that recedes into the distance. The sky is a vibrant mix of orange, red, and yellow, suggesting a sunset or sunrise, with a few wispy clouds and a faint lightning bolt visible in the upper left. On the right side of the road, four rectangular soundproofing panels are arranged in a row, receding into the distance. The panels are colored from left to right: grey, green, orange, and blue. Each panel has a grid of circular, raised acoustic absorbers. The left side of the road is lined with green trees and a field of yellow wildflowers.
